Description

Reading as a teen leads to success. When teens read more than just their classroom assignments, research clearly shows that they generally do well in school.

First of all, the extra reading expands their vocabularies. It also shows them how different writers put down their thoughts leading to better writing skills.

Teens who read more serious literary works gain skills in handling complex ideas. The more teens read, the more information they pick up. This leads to a solid core of knowledge that is useful in a wide variety of classes.

For example, the teen who reads biographies has a better understanding of prominent people studied in history classes.

Just fill in the questions about the young adult that you're buying for, and we'll send them an appropriate, hand-picked book they'll enjoy every month.
