Description

Reading for pleasure makes a big difference to children's educational performance. Evidence suggests that children who read for enjoyment develop a broader vocabulary, increased general knowledge and a better understanding of other cultures.

In fact, reading for pleasure is more likely to determine whether a child does well at school than their social or economic background.

Whether it be fantasy, comedy, mystery or action we can pick some of the latest books mixed with a selection of classics.

Just fill in the questions about the youngster that you're buying for, and we'll send them an appropriate, hand-picked book they'll love every month.

Each book is individually wrapped and will be posted on the first working day of each month for as long as your subscription lasts.*

Kids' Book Club is available in 3, 6 and 12 month hand-picked packages and is made especially for children aged **4-12 years**.
